

CONTENTS

EDITORIAL

LETTERS TO THE EDITORS	1
------------------------------	---

POINT OF VIEW

Using ICT in mathematics: a plea for support, Monica Wong.....	3
Reflections on <i>Reflections</i> : feedback from the survey of readers, Judy Anderson	6

REFLECTIONS ON MATHEMATICS IN THE REAL WORLD

What happens with all that maths? Peter K. Dunn.....	10
--	----

REFLECTIONS ON THE NEW YEARS 7–10 SYLLABUS

Extra perspectives on secondary school mathematics – Part 2, Paul White and John Sattler	17
Division by a fraction, Cyril Quinlan.....	20
Interactive maths worksheets using Excel: some suggestions for implementing technology, Bill Lo and Allan Wybrow	21

REFLECTIONS ON ALGEBRA

Introducing variables: from pegs to patterns, Stephen Arnold.....	25
A teaching sequence for quadratic equations, Cyril Quinlan	27

REFLECTIONS ON GEOMETRY

Imagery, spatial ability and problem solving, Heather McLeay and Lloyd Dawe	31
Constructing the pentagon, Mike Clapper	34

REFLECTIONS ON SENIOR MATHEMATICS

Locomotive of time travel: a new approach to teaching financial mathematics, Michael Yastreboff.....	38
The Pascal and Leibniz triangles, Ken Grant	42
Logarithms and the derivatives of exponential functions, Robert Speare	47
Rules required in the 2003 HSC Mathematics examination paper, Maureen Campbell	48

THE MATHS EXCHANGE

Place value and working mathematically, Andrea Ferguson.....	51
Simplifying algebraic terms, Andrea Ferguson.....	53
Using graphs to solve equations and inequalities, Nikky Vanderhout and Lyn Mealey	55
The angle between two lines, Nikky Vanderhout	59
The language and history of mathematics: Crosswords 15 and 16, Vince Hage	61
