

## Desmos Graphs and Activities

### Who should do this course?

This course is designed for teachers new or inexperienced with using Desmos graphs and activities who are looking to enhance their use of technology in the classroom.

### What will happen on the course?

Participants will:

- Learn the basic features of Desmos graphs and activity builder
- Build Desmos graphs that can be used to demonstrate concepts or allow students to explore concepts
- Explore the use of activity builder and how to use this with a class
- Plan their next lessons using Desmos activities, including the teacher moves, assessment and feedback opportunities and follow-up activities.

### Why should I take this course?

Take this course to be empowered to create and edit basic Desmos graphs and activities and to use them effectively with your class to develop concepts and take assessment and feedback opportunities. Leave this course with an understanding of the possibilities available with Desmos, how to take advantage of them and a package of MANSW developed resources ready to use in your classroom.
