

Stage 6 Syllabus Overview

Who should do these courses?

This course is essential for all teachers and leaders involved in implementing any of the Stage 6 Mathematics Standard 1 and 2, Advanced, Extension 1 and Extension 2 syllabuses in 2026. Those preparing to teach these new syllabuses in 2027 will also benefit from the summary of changes presented.

What will happen during these courses?

Participants will:

- learn the key changes to the Stage 6 Mathematics (2024) syllabuses and how they impact teaching and assessment.
- explore effective ways to integrate the Working Mathematically outcome across all areas of the syllabus.

Why should I take these courses?

Take any or all these courses to confidently navigate the Stage 6 Mathematics (2024) syllabuses, confidently meet syllabus requirements in your teaching, and leave equipped with practical tools and resources to support effective syllabus implementation.

Completing this course will contribute 2 hours of professional development addressing standards 2, 3 and 6 from the Australian Professional Standards for Teachers.
